IF YOU DO NOT RECEIVE THIS CODE PLEASE CONTACT THE CLUB BY EMAIL YOUR ENTRY IS NOT VALID WITHOUT THIS CODE.REMEMBER you must keep your lead rope loose and keep moving forward between obstacles with no circling. If you do have a tight lead rope, stop or circle BETWEEN obstacles you will lose a mark from the next obstacle's score.

6. Spooky Corner. Create a scary corner that has scary things on both sides and has a **sharp** corner to walk round (see arrow), can be as wide as is safe for your horse. Horse to pass through in walk, handler goes around the outside level with horse's hip.

Halloween theme fun, but optional! 

7. Forest floor. Lay 4 poles on the floor as shown in the diagram. Horse to walk over the poles without touching them. At least one foot must step between each pole. Handler does not step over poles.

5. Broomstick. Pick up a broom and carry it safely while going through the scary corner.

8. Tunnel. Build a very simple tunnel, NOT an arch, a tunnel is longer than an arch, at least 3ft (1m) long with sides that go **right down to the ground.** Handler asks horse to wait before tunnel, when handler is through the tunnel he counts to three then asks the horse to join him.

4. Pumpkin patch. Horse and handler to weave through five cones or markers (or pumpkins!) set out as per the diagram. Handler is at horse's right shoulder. Follow the red line!

3. Logs. Place two poles in a V shape as per the diagram, with a gap to pass through which is ONLY JUST wider than your horse's legs as they walk through. It should look like a squeeze. Gaps too wide will lose marks. Horse to walk into poles and halt so that his back feet are at the star. Horse to then backup back through the gap so that his front feet are beyond the end of the poles, then walk on forward through the V shape. Handler must also stay between the poles and not step over them. Horse and handler must not touch the poles.

9. Target. Create a target point that is level with or higher than the horse's wither. A disc or mark on a wall that the judge can see is fine. Ask the horse to reach out and touch the target for five seconds without using the lead rope to guide him.

2. Swampy tarpaulin. Horse to walk into the swamp (tarpaulin) and make a **complete** turn without stepping off while turning. Handler must stay on tarpaulin without stepping off during the turn. Follow the arrow.

10. Backup. Place two **SMALL** markers on the ground and finish by turning your horse before the markers and backing him through them in one smooth movement without a halt.
